Writing Frame

The document I use.

With all the questions I ask.

You and your teachers can always add more, and should.

I think it is a good starting point.

Unit Information

Unit 16.

Cloud Storage and Collaboration Tools.

60 Guided learning Hours.

Internal Unit, no exam.

Learning Aims

1

Learning Aim A -
Explore the use of
cloud technologies and
tools in organisations.

2

Learning Aim B - Design
and deploy a cloud-
based collaboration
service to meet a
client's needs.

3

Learning Aim C -
Manage and review a
cloud-based
collaboration service to
meet a client's needs.

Learning Aim A Summary

<p>A Explore the use of cloud technologies and tools in organisations</p>	<p>A1 Cloud computing in organisations</p> <p>A2 Cloud computing models</p> <p>A3 IT requirements of an organisation</p> <p>A4 Impact of cloud services</p> <p>A5 Legal requirements</p>	<p>A report investigating how cloud-based storage and collaboration solutions could be implemented in an organisation to fulfil its needs.</p>
--	---	--

Learning Aim B & C Summary

B Design and deploy a cloud-based collaboration service to meet a client's needs	B1 Planning cloud-based collaboration solutions B2 Reviewing and refining designs B3 Development of cloud-based collaboration solutions	A project brief detailing client needs, design specifications for the proposed solutions, development and testing logs, meeting notes and a report that evaluates the effectiveness and appropriateness of the cloud storage and collaboration solution.
C Manage and review a cloud-based collaboration service to meet a client's needs	C1 Testing and maintaining cloud-based collaboration solutions C2 Reviewing and refining cloud-based collaboration solutions C3 Lessons learned from developing cloud-based collaboration solutions C4 Presentation skills C5 Reviewing own skills, knowledge and behaviours applied	

Only Assignment

I will only go over the assignment.

I will not do the teaching part.

Meaning I will not explain all the concepts.

I will provide a writing frame for you to use at the end.

Learning Aim A Document Setup

Do a walkthrough.
